

POPULISM  
IS THE  
FUTURE

**What voters are thinking matters.**

We must direct their thoughts to the issues affecting them, that are being caused by **Marxist Democrats**.

For many, they are trying to escape the grim reality that we have become a **“failed nation”** unable to resolve our problems, that seem impossible to change.

**Fear, uncertainty, having no hope divides us and feeds the tyranny and evil of the Marxist Democrats’ appetite for power and control.**

**They have no issues to talk about, other than their self-serving obsession with identity politics; and, how to exploit our differences of race, class, and sex. *Their ultimate goal is the advancement of Marxism with no escape.* How we TRANSFORM also matters.**

**The complexity, and time needed, demands we start now to recruit the support of allied organizations, and leadership, to implement, grow, and manage the process. Engaging Citizens, not Government.**
