President Trump was right when he said, that:

We are the <u>only</u> country in the world using Mail-In Ballots for Voting.

Some of the more advanced countries have limited "absentee" voting for a small number of citizens, but most (more than 97%) use **in-person, same day voting with election results tabulated the day ballots are casted**. Then, why are we not reinstating the pre-Covid voting procedures that had been legislated into law, and approved by voters? **More than 82% of registered voters want these procedures re-instated; and, <u>do not believe mail-in ballots are secure</u>.** Our elected representatives do not have the authority, nor right, to determine how we vote. **We decide, not the candidate running for office, who is a paid public servant.**

Republicans must challenge the legality of elected representatives deciding on how citizens can vote.

Voter Verification laws vary by State for In Person Voting; and, Absentee/Mail-In Ballots. Here is a summary of the most Common types of Verification Mechanisms:
